

**Application:**

The Alcatel 7300 Streaker Card is used during installations to quickly verify wiring continuity ("streak") from the Alcatel 7300 Low Pass filter card slots to the Frame. The Streaker Card has 12 LEDs for POTS and 12 LEDs for ADSL & a LED test button for battery verification. Tester 1 will observe the LEDs at the front of the Alcatel 7300 Streaker Card. Tester 2 will connect a test probe to Frame Ground and begin by grounding the corresponding pins with the other end of the probe.
