

Next Level

Application:

The ST-NIU-1 provides a quick method to verify wiring continuity (streak) from the NIU card slots to the DSX-1 and/or Frame when installing NIU's in Next Level Communication's Broadband Digital Terminal. At the DSX-1 connect TAG's test probe (P-2000) to frame ground and verify Tip and Ring connections. With the grounded test probe (P-2000) touch a test point at the DSX-1 to verify Tip and Ring connections. The associated LED will illuminate on the Streaker Card (ST-NIU-1). The ST-NIU-1 has 96 LED's - 48 green (tip) and 48 red (ring).
